TALL COLOUR GHOST / KEYED FILM CAGE

Cut size: 274.415 x 95.000 mm. 31 optically compensated repeats. A4 landscape.

Print at Actual size / 100%. Disable fit-to-page and mirror printing.

Use laser-compatible transparency, transparency media mode and no toner-save.

Cut a plain rectangle: no old corner notches and no overlapping seam.

TOP faces the cap; toner side faces out. Insert each end 0.9 mm into the joiner, to its stop.

Glue and let cure outside the cage, then slide the cylinder in and fit its keyed top cap.

If the view faces the other side, refit the keyed platter 180 degrees round on its shaft.

This line must measure 100 mm. Test on plain paper first.
